Storefront & Admin Panel — Visual Overview
Product Showcase + Interface Mockups — 2026

10 Products | Variant Dropdowns | 25 Admin Modules | 8 Payment Gateways
Multi-Currency (PKR/USD) | Meta Pixel | WooCommerce + WordPress

1. Storefront — Customer Interface

The storefront features a premium dark theme with midnight black background and electric blue accents. Products display with AI-generated brand images, variant dropdowns for multi-duration subscriptions, and instant checkout via Lemon Squeezy or JazzCash.

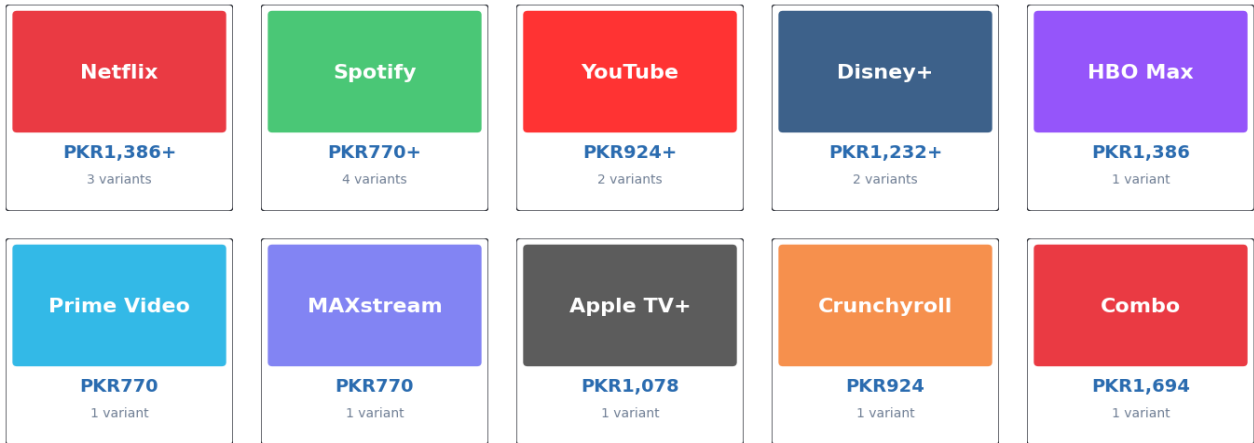

Storefront interface mockup showing hero, trust badges, and product grid with brand-colored covers

2. Product Catalog (10 Products, 17 Variants)

Each product has an AI-generated brand image matching the service's identity. Products with multiple durations show as a single card with a variant dropdown instead of separate listings.

Product Catalog — 10 Streaming Services with AI-Generated Brand Images

All 10 products with brand colors and variant counts

Product	Brand Color	Variants	Price Range	Image
Netflix Premium	Red (#e50914)	3 (1mo/3mo/12mo)	PKR1,386 - 13,860	AI-generated
Netflix + Prime Combo	Red + Blue	1 (1mo combo)	PKR1,694	AI-generated
Spotify Premium	Green (#1db954)	4 (1/3/6/12mo)	PKR770 - 6,776	AI-generated
YouTube Premium	Red (#ff0000)	2 (1mo/12mo)	PKR924 - 8,624	AI-generated
Disney+ Premium	Navy (#0c3a6d)	2 (1mo/12mo)	PKR1,232 - 11,704	AI-generated
HBO Max	Purple (#7b2bf9)	1 (1mo)	PKR1,386	AI-generated
Prime Video	Blue (#00a8e1)	1 (1mo)	PKR770	AI-generated
MAXstream Premium	Indigo (#6366f1)	1 (1mo)	PKR770	AI-generated
Apple TV+	Dark Gray (#333)	1 (1mo)	PKR1,078	AI-generated
Crunchyroll Premium	Orange (#f47521)	1 (1mo)	PKR924	AI-generated

3. AI-Generated Product Images

Each product has a unique AI-generated image featuring the service's brand color as a glow effect on a dark background. All images are 1024x1024, professional digital art style, matching the platform's premium dark aesthetic.

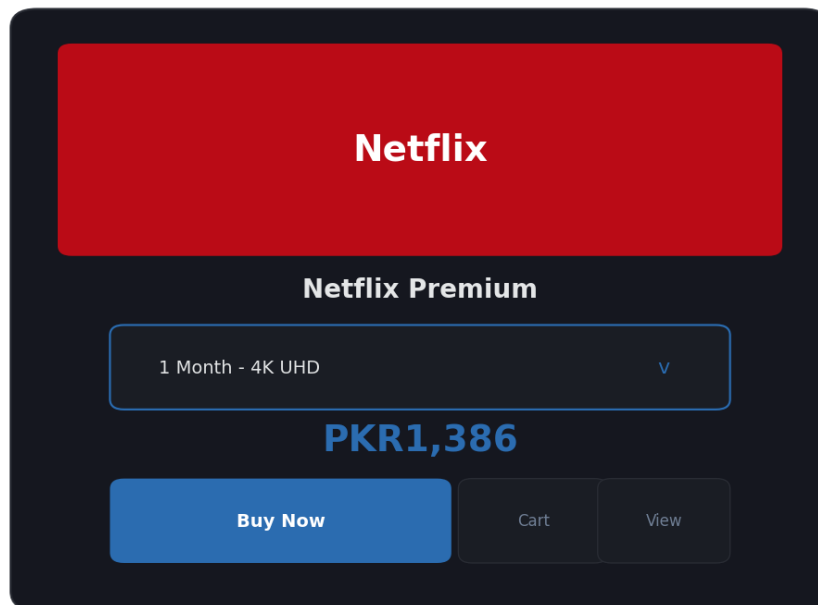

Actual AI-generated product images used on the storefront (9 of 9 shown)

4. Variant Dropdown System

Products with multiple durations display as a single card with a dropdown selector. Customers choose their plan (1 Month, 3 Months, 12 Months) and the price updates instantly. Add to Cart and Buy Now use the selected variant's price and label.

Variant Dropdown — Select Plan Before Purchase

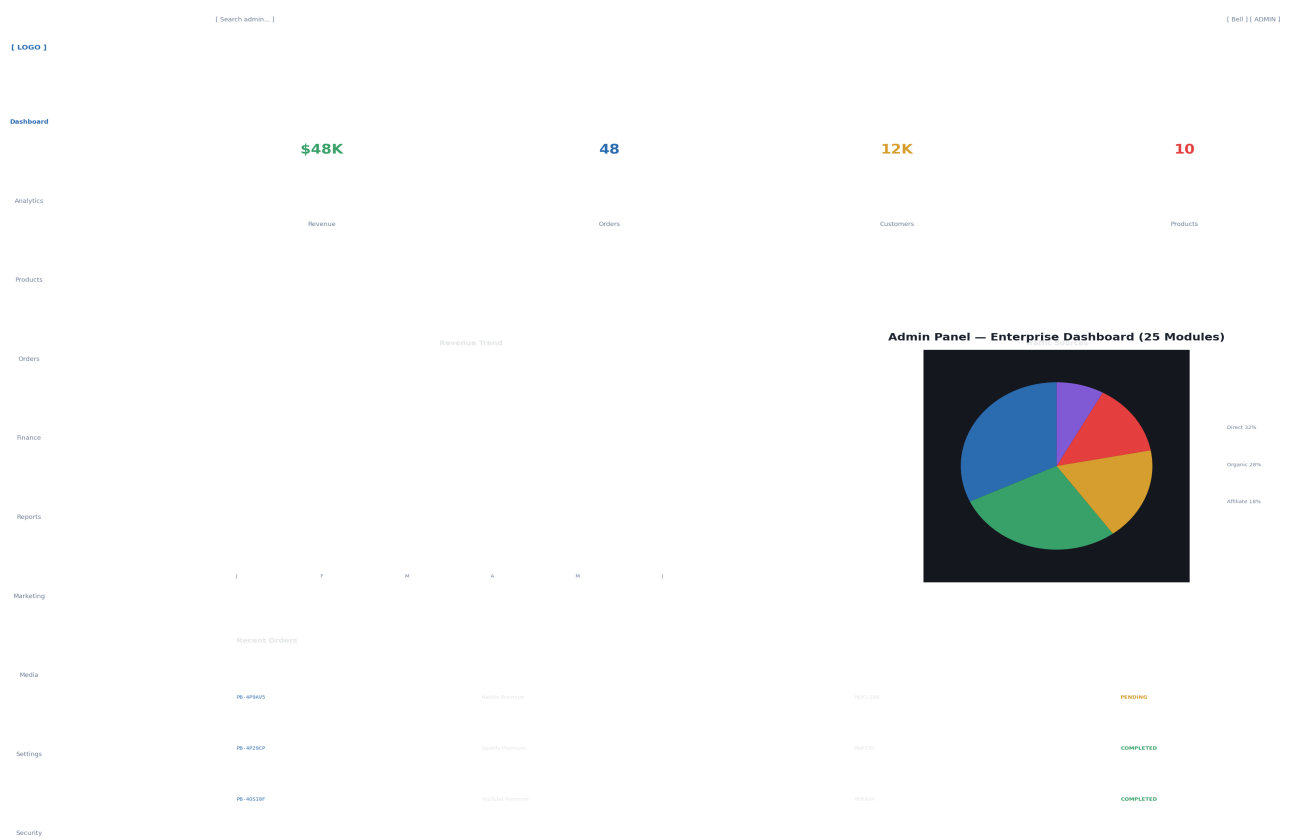

Product card with variant dropdown — selecting a plan updates the price instantly

- Single card per product (not separate listings for each duration)
- Dropdown shows: '1 Month - 4K UHD — PKR1,386' / '3 Months — PKR4,004' / etc.
- Price updates instantly when a variant is selected
- Add to Cart includes variant label: 'Netflix Premium — 3 Months'
- Buy Now uses the selected variant's price for checkout
- Products with 1 variant: no dropdown, price shown directly
- Multi-variant products show 'PKR770+' (starting price indicator)

5. Admin Panel — Enterprise Dashboard

The admin panel features a glassmorphism dark UI with a luxury car background image. A fixed sidebar provides navigation across 25 modules in 6 groups. The dashboard shows real-time KPIs, revenue charts, traffic sources, system status, recent orders, and live notifications.

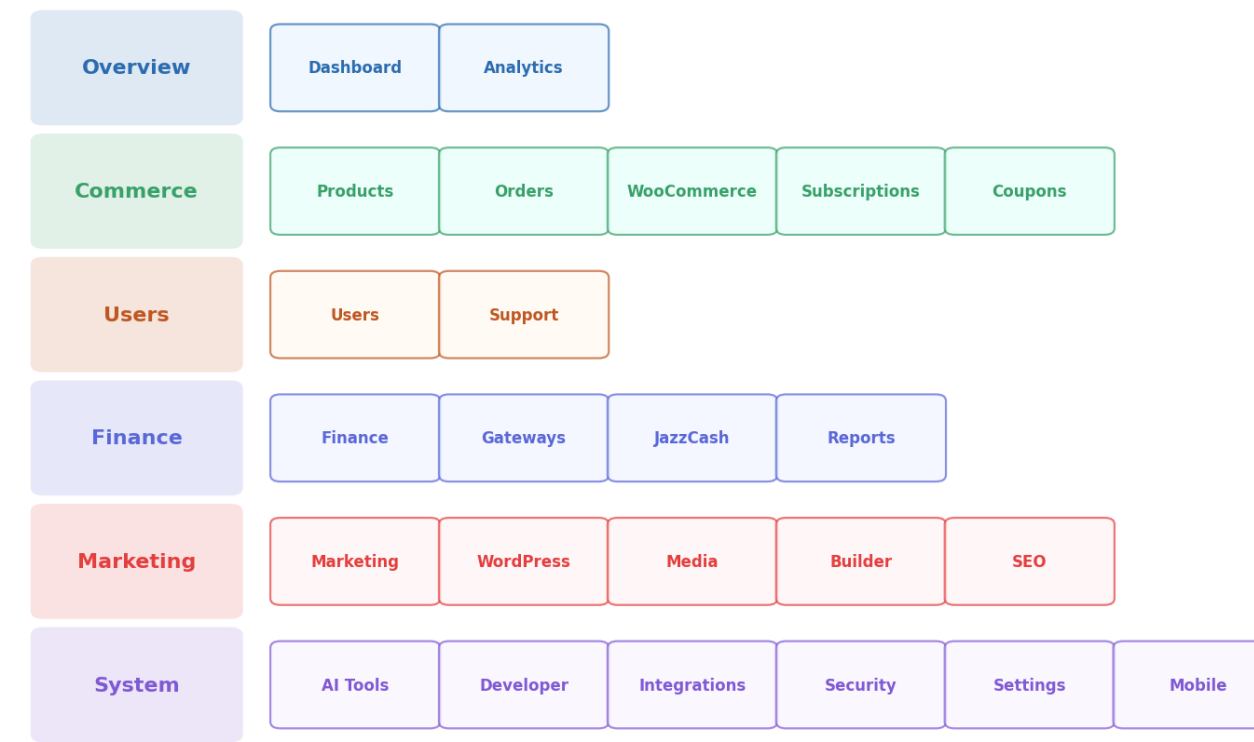

Admin dashboard mockup showing sidebar, KPI cards, revenue chart, traffic pie, and recent orders

6. Admin Module Map (25 Modules)

The admin panel is organized into 6 navigation groups, each containing multiple functional modules. Every module is fully interactive — no 'coming soon' placeholders.

Admin Panel — 25 Modules in 6 Groups

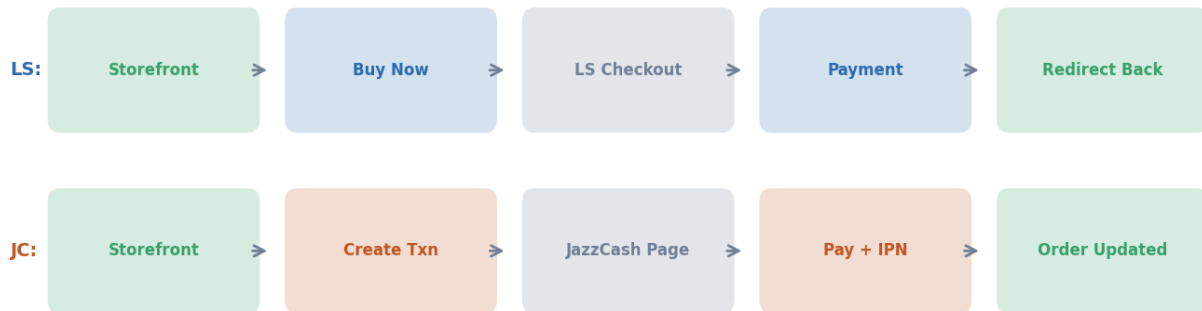

All 25 admin modules organized by navigation group

Group	Modules	Key Capabilities
Overview	Dashboard, Analytics	6 KPIs, revenue chart, traffic pie, system status, recent orders
Commerce	Products, Orders, WooCommerce, Subscriptions, Coupons	Product catalog, order management, WC sync, plan management, coupon codes
Users	Users, Support	User table with roles, ticket system with live chat, FAQ manager
Finance	Finance, Gateways, JazzCash, Reports	Revenue charts, 8 gateways, live JazzCash, 9 report types with exports
Marketing	Marketing, WordPress, Media, Builder, SEO	Campaigns, WP sync, file upload, CMS, meta tags
System	AI Tools, Developer, Integrations, Security, Settings, Mobile	6 AI tools, developer tools, 12 integrations, API keys, audit logs, 9-tab settings, mobile app

7. Payment Gateway Flows

The platform supports 8 payment gateways. Two are fully live (Lemon Squeezy + JazzCash); six more are configured and ready to activate by adding env vars.

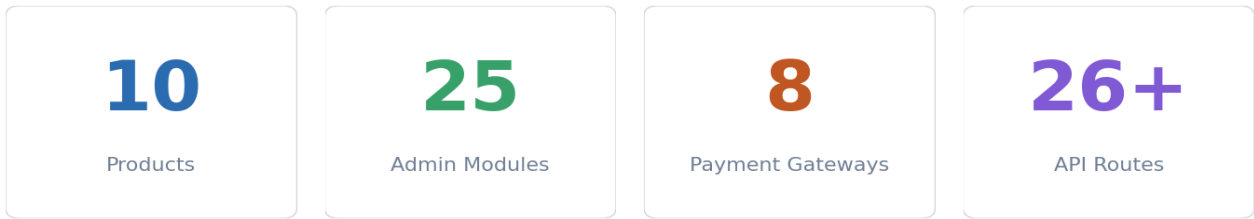

Payment flows: Lemon Squeezy (top) and JazzCash live (bottom) — 5 steps each

Gateway	Status	Mode	Flow
Lemon Squeezy	Active	Live	Redirect to LS hosted checkout
JazzCash	Active	Live	POST form to JazzCash page + IPN webhook
Stripe	Ready	Sandbox	Add env vars to activate
PayPal	Ready	Sandbox	Add env vars to activate
Paddle	Ready	Sandbox	Add env vars to activate
EasyPaisa	Ready	Sandbox	Add env vars to activate
Crypto	Ready	Sandbox	Add env vars to activate
Bank Transfer	Ready	Sandbox	Add env vars to activate

8. Summary

The platform consists of a customer-facing storefront with 10 streaming products, variant dropdowns, AI-generated brand images, multi-currency support, and checkout via Lemon Squeezy or JazzCash. The admin panel provides 25 fully functional modules covering commerce, finance, marketing, security, and system management — all behind a password-protected interface with a luxury car background and glassmorphism dark UI.
